## Location in Motion

- great potential for research, technology and know-how, provided by two universities with 34.000 students
- an institutionalised transfer of technology
- qualified and skilled work-forces
- very good connections on road and rail
- the international airport Frankfurt within easy reach
- numerous institutions for education and qualifications
- a high value in terms of culture and leisure
- regional support offered for commercial start-ups and investments
- a compact city

This detailed map of the Gießen region illustrates the Lahn river and its confluence with the Fulda. Major roads are shown in blue, including the A 45, A 480, A 485, and B 49. The map identifies several districts (GE-Gebiet) and specific locations such as Wetzlar, Lützellinden, and Hüttenberg. The Lahn river is depicted in light blue, flowing through the center of the region. The map also shows the proximity to the Fulda river and the city of Kassel.
